## Waterfront Overview

Is Waterfront?
No

Waterfront data is determined using public geographic data provided by Google. Please consult local county authorities for official feature data.

### Septic Breakdown

Septic Absorption Limitation	Definition	% of Property
Very limited	Indicates that the soil has one or more features that are unfavorable for the specified use. The limitations generally cannot be overcome without major soil reclamation, special design, or expensive installation procedures. Poor performance and high maintenance can be expected.	100.00%

Septic tank absorption fields are areas in which effluent from a septic tank is distributed into the soil through subsurface tiles or perforated pipe. The ratings are both verbal and numerical. Rating class terms indicate the extent to which the soils are limited by all of the soil features that affect the specified use.

Ratings are neither absolute or official. Please consult local licensed authorities for more details. [Ratings Source](#)

### Road Frontage (Beta)

307.8 feet

Road frontage is determined using public road data provided by Google. Frontage is an estimation using map projection. Please consult local county authorities for official legal & physical access details.

### Road Access Points

Road Name	Nearest Point to Property	Property Access?
SC-56, Clinton, SC 29325, USA	34.51740, -81.85293	Yes

Road access is determined based on the proximity of the closest point in the road to the property's boundary. Please consult local county authorities for official legal & physical access details.
